

# **AMERIFLIGHT**

August 15, 2010

To Ameriflight Employees:

It is my pleasure to announce, as a new addition to the Ameriflight team, Rick Herrera as Southwest Regional Maintenance Director reporting to me.

Rick began his career with Clay Lacy Aviation as a newly licensed A&P from the North Valley Occupational Center in Van Nuys, CA almost 15 years ago. He worked his way through the ranks at Jet West Inc. out of Van Nuys becoming the Director of Maintenance there working with King and Queen Airs, Gulfstream I and II, Hawkers 125 800 and most models of Lear Jet. After working with Jet West he left sunny California to work with Premier Jets Inc. out of Hillsboro OR, for many years as Director of Maintenance.

When away from work, he enjoys spending time with his wife of 25 years and son Steven and daughter Amy. Some of his main interests include fishing and camping.

Please join me in welcoming Rick Herrera to the Ameriflight team.

Sincerely,

John E. Nanney

VP, Maintenance
